

November 12, 2007

**BULLETIN:** 7-011

**SOFTWARE:** AP Laser Check Update - version 1.x.x or 2.x.x users

**RELEASE:** v 3.2.0

**DESCRIPTION:** Table changes in MUNIS version 6.2 will require conversion to Laser Check program 3.2.0

---

---

## OVERVIEW

MUNIS version 6.2 contains several database table changes. When your district upgrades to MUNIS version 6.2, the database changes will cause your current AP check layout to incorrectly print a new, system-generated document numbers in the same location as the invoice number appears. This is due to the renaming of several MUNIS database fields.

## ACTION YOU NEED TO TAKE

In September of 2005, all districts utilizing the PSST Payroll and A/P Laser Check programs, versions 1.x.x and 2.x.x, were notified that these versions would be retired on December 31, 2006, and that enhancements to these older program versions would no longer be made.

**SINCE YOUR CURRENT VERSION OF 1.x.x or 2.x.x IS NO LONGER BEING SUPPORTED, CONVERSION TO THE LATEST VERSION OF THE LASER CHECK PROGRAM (VERSION 3.2.0) WILL BE REQUIRED, AND SHOULD BE DONE PRIOR TO YOUR MUNIS 6.2 UPGRADE. PLEASE CONTACT PSST AT 1-800-488-7395 TO START YOUR CONVERSION PROCESS AND SCHEDULE AN INSTALLATION DATE.**
