BULLETIN: 7-009

SOFTWARE: Employee and Job Query Mail Merge Update

RELEASE: Version 3.3.1

DESCRIPTION: Update reflects table changes in MUNIS version 6.2

OVERVIEW

MUNIS version 6.2 has increased the employee address field length from 25 to 30 characters. This patch will allow for the enhanced field length in the Employee and Job Query Mail Merge programs.

ACTION YOU NEED TO TAKE

Download and unzip the Emp/Job Query Mail/Merge MUNIS 6.2 patch from the PSST Software Download page <http://www.psst.com/psstcom.nsf/links/keeis-downloads>. Unzipping the download will automatically update both the programs on your local (C:) drive. If you need assistance or have any questions, please call us at 1-800-488-7395.
